

MINI-WRAPPING MACHINE

For small bale & silage, for easy handling

SWM0830

Adaptable bale size is 60 ~ 80cm width, 46 ~ 50cm diameter.

STAR MINI-ROUND BALER series

Easy operation with engine

Since the SWM0830 is equipped with a 2 PS engine, wrapping operation can be done anywhere. Also, the handle and tires are equipped for transportation.

Stable operation with Aluminum roller

Since aluminum rollers are used for the stretching device, less wear off is expected. Cylindrical rollers stretch the film properly and evenly, help to make high quality wrapped silage effectively.

Auto-stop wrapping system

When wrapping time reaches a set value, the auto-stop system works to stop table rotation automatically. Wrapping number can be set in 2/4/6 layers with pin insertion.

SPECIFICATIONS (Approximate)

Model	Film width (cm)	Dimensions (cm.)			Weight (kg)	Adaptable bale size (cm)		Number of stretch	Table rotation (rpm)	Engine power kW (PS)
		Length	Width	Height		Diameter	Width			
SWM0830	50	150	87	103	72	46 ~ 50	85 ~ 100	Single	20 ~ 40	1.5 kW (2.0PS)

Remarks : Figures, technical data, dimensions and weight are subject to change without notice.
STAR genuine wrapping film; WF0800
